

I am 100% opposed to the inclusion of a "broadcast flag" or any other so-called digital rights management in HDTV. It won't do anything to prevent commercial pirates, and it will completely obliterate my fair use rights under existing Copyright law.1

1

TV stations have flourished in the analog domain - complete with video recorders, DVD recorders, VCD's, and the like. I fail to see why they won't do just as well in the digital domain.1

1

Rather than restricting the Public's rights, they ought to simply sit down and update their business models to take advantage of all that the digital domain can offer them.1

1

I will be watching this issue closely, and appreciate your efforts on behalf of the Public.
